EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with George Kaplan on March 2, 2006.

The application has been amended as follows:

The claims have been amended in accordance with the attached fax. The following additional changes have also been made:

In claim 2, line 2, the language ",such as plastic" has been deleted.

New claim 22 has been added as follows:

22. The model of claim 2, wherein the synthetic material is plastic.

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or suggest the invention as recited. While Browne-Wilkinson discloses a model of a knee which can be reconfigured to show various stages of surgery, there is no suggestion or motivation to modify the reference to provide a model of a heart comprising ventricles and veins or arteries which can be adjusted to demonstrate various stages of surgery. Montgomery discloses a series of heart models which show

different types of heart disorders but again, there is no suggestion or motivation that the models can be modified to demonstrate various stages of surgery.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Chamberlain, Funk, Cooper, Coomansingh, Ehrenpreis, Weber, Tuason, Grosz, McKeown, Kling and Thompson disclose various surgical and anatomical models.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kurt Fernstrom whose telephone number is (571) 272-4422. The examiner can normally be reached on M, T, Th 9:30-6:00.
